Tressa/Israel...I wanted to follow up as promised. I received the revised agenda and it addressed the 1 concern we had regarding avoiding discussions related to ongoing enforcement activities with the Region.

We are more than willing to participate in a discussion with the group of local citizens and various agencies as we discussed yesterday, however we are unable to participate on July 16 as proposed. In discussions with the mill and our business leaders, two key GP participants are unavailable on that date due to previous commitments and other community members we would like to invite have conflicts as well.

We would ask that the meeting date be moved until September to avoid summer weekends while school is out and vacations are scheduled. This would provide more advanced notice for everyone involved so that we can get the right group of participants engaged in the discussion.

Please feel free as always to give me a call to discuss.

Dear, Mr. Champion – EPA Region 6 would like to bring together a small group of community stakeholders to discuss air quality in Crossett, Arkansas, on Saturday, July 16, 2016, from 1:30 – 3:45 p.m. at the Crossett Public Library, 1700 S. Main Street, Crossett, AR 71635. This meeting will be an opportunity to share information on the voluntary air monitoring that has been conducted and to talk about ways the community can work together on any ongoing concerns. We would like the group to include a small group of residents and representatives from local government, State agencies, and industry, so everyone can voice their perspectives and hear the viewpoints of others in an effort to improve communication and cooperation. A draft agenda is attached. Please let us know if you have any questions and if someone from Georgia-Pacific LLC will be able to attend. Thank you! -- Tressa
